

Let's get digital

Your portrait session photos will be edited and uploaded to a password-protected online gallery for print ordering.

Included in the session fee is one high-resolution, edited file of your choosing, which will be provided by e-mail.

A CD of 20+ edited, printable files is available for \$250. This CD will be included with print orders of \$300 or more. Individual files are \$50 each.

...and analog?

Prints may be ordered through your online gallery. I will edit each image to suit the size of the print and make sure that the final product meets my high standards. I use a local professional print lab for amazing quality prints.
